

SOI-ASIA University of Hasanuddin

By: Muhammad Niswar

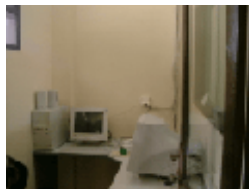

Hasanuddin University Site

- SOI-Asia Project infrastructures have installed in Centre for Public Policy and Development Management Studies Building, Hasanuddin University as a Counterpart.

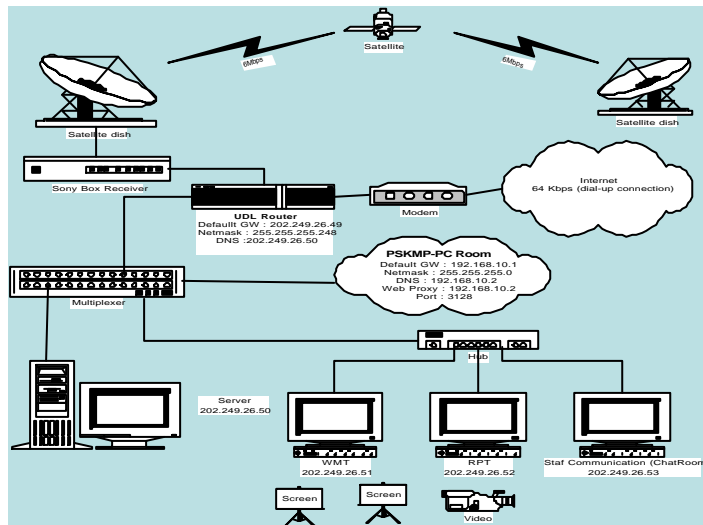

Environment

- Semi-interactive site.
- On campus LAN is partially connected .
- The center has 15 PCs for self-education.
- External connectivity is dial-up connection.
- Classroom capacity is available up to 30 persons.

Environment

Equipment Setup

Last Condition of UNHAS site

Problem:

- No connection is established between Sony Box and UDL Receive Router, which is indicated by LED indicator of 'LAN/act' on Sony Box is turn off.
- We can upload limited real time source: Video and Audio because of insufficient BW

Last Condition of UNHAS site

The problems occurred due to:

- Lightning strikes harm the Sony Box, Router and Modem.
- External connectivity is dial-up connection using modem that provide 56 Kbps. This is considered as insufficient.

Solution

- Install the good grounding system (Done)
- providing sufficient BW for the external connectivity (in progress)
